RE: M 149 Q-core assessment

The Q-core learning outcomes were assessed for students in M 149-002 this semester. Questions on Exam IV, the last exam of the semester, were used to assess these outcomes. 33 students took this exam. Here are the results:

Learning Outcome 1: Problem #1. 88% of the students were deemed "acceptable."

Learning Outcome 2: Problem #2. 82% of the students were deemed "acceptable."

Learning Outcome 3: Problem #5. 91% of the students were deemed "acceptable."

Threshold: 70% of the students were deemed acceptable on all three learning outcomes. This exceeds the Q-core's 50% threshold level.
